

## **SHARE THE PAIN!**

Mayor Chow should deal with the **Root Causes** of our debt and declare Toronto can't be **Sanctuary City** because we cannot build enough housing for all of the new people clearly explaining why we need Mayor Chow to lead Council in a complaint to the Federal and Provincial governments that we and the other 443 municipalities of Ontario can't take any more and therefore Mayor Chow should also make a pledge to enhance this complaint by setting a sincere example with a pledge that all Members of Toronto City Council will accept pay cuts themselves comparable to cuts she is asking of other Toronto Departments and **Share The Pain** taxpayers are being forced to take?

If Council passed a motion to give themselves automatic pay raises they can pass another motion that will show they agree to **Share The Pain** taxpayers are made to feel by indiscriminate tax increases.

**Simply blaming other Members of some other distant Council for adopting a motion for automatic pay raises is lame and a selfish political response to a hard question.**

**A Mayor and City Budget Chief know this!**
