City of Toronto Planning Department 305-3073, an unincorporated public communication.
 Version 0.01, September 16, 2021

10. **REALITY CHECK** In 1994, the U.S. Census Bureau reported that 10.4 million people in the United States were unemployed. Assuming that the unemployment rate in 1994 was 10.4%, how many people were employed in 1994?

The floor plan shows a rectangular building layout with a central corridor system. The plan is divided into several rooms, including offices, a large central hall, and a reception area. The layout is symmetrical, with rooms arranged around a central vertical corridor. The plan is labeled with room numbers and names, such as 'Reception', 'Office', and 'Meeting Room'. The plan is oriented with the entrance at the top.

This architectural floor plan shows a building layout with various rooms, corridors, and service areas. A prominent red dashed line runs diagonally across the plan, likely representing a structural cut or a section line. The plan includes a central corridor system, multiple rooms of varying sizes, and a large open area on the right side. The drawing is oriented with a dashed line indicating the building's footprint.

A diagram of a circular parking lot. A horizontal line segment represents the diameter, with the number "3.02" written below it. A vertical line segment from the center to the top edge represents the radius, with the number "2" written to its left. The text "Parking 2" is written above the circle, and "1:200" is written to the right of the circle.
