Dear Mayor Chow and Members of City Council:

I am extremely concerned to read that according to our own experts Toronto is not on track to meeting its climate action targets and achieve net zero by 2040. The report also specifically highlights that the rollout of our cycling network plan continues to be a “Business as Planned” pace, not the ambitious build-out that we need to make riding a bike a better option for more people city-wide.

I urge you to:

Commit to completing the Council-approved 100 km 2022-2024 Cycling Network Plan including Eglinton Ave, Avenue Rd., and Danforth-Kingston
Accelerate the upcoming 2025-2027 Cycling Network Plan to target at least 150 km total and average over 50 km of new bikeways a year to complete the Major City Wide Cycling Routes by 2030

Toronto has shown it's possible. Under ActiveTO, Council made historic progress accelerating its expansion of our cycling network. Toronto has a plan. We need to put it into action with the urgency that tackling the climate crisis demands.

Like you, I want a more vibrant, friendlier public realm. I want us to ease traffic congestion and give people more transportation options. I want us to connect communities from downtown to the suburbs. I want us to eliminate road violence and make VisionZero a reality. I want us to achieve net zero for a greener, healthier future. Bikes can do that. You can make it happen.

Thank you for your consideration,
