I agree with FoNTRA that the Major Streets initiative is important for the growth of the City. But appropriate implementation will be key to its success.

I agree with the concerns in the FoNTRA letter to PHC that insufficient information is available regarding the locations where this new program will apply and that existing local provisions have not been considered.

I am further very concerned that new reports will be brought to Council directly without any prior consultation regarding increasing the number of permitted units in apartment buildings from 30 to 60, decreasing setbacks and landscaping requirements.

The loss of residents' abilities to appeal Committee of Adjustment means that residents' participation in the development of regulations for Major Streets is especially important.

I therefore urge City Council to defer consideration of PH12.3 and refer this report and the new reports to the Community Councils for their consideration.
