---

We, the Social Justice Advocacy Committee of Congregation Darchei Noam urge you, the Toronto City Council to say "yes" to micromobility but "no" to electric scooters and to approve the April 25, 2024 Toronto City Staff Report on Micromobility without any changes. We are persuaded that electric scooters pose a danger to vulnerable persons with disabilities and to seniors.

Respectfully,

Suzanne Silk Klein and Laurel Rothman,

co-chairs, Social Justice Advocacy Committee of Congregation Darchei Noam (for the committee)
