City of Toronto City Council City Clerk,

I am disappointed that City Council has failed to deliver the 2022-2024 Cycling Network Plan. I was counting on you to install the Danforth Kingston Complete Street by 2024 as promised.

Now the 2025-2027 Cycling Network Plan is overall unambitious and is recycling projects that we were already promised. Why should we trust that anything in the 2025-2027 plan will be built? After all, we were left behind by the 2022-2024 Cycling Network Plan, and 2025-2027 looks like more of the same.

I urge you to immediately move forward with the Danforth Kingston Complete Street project. We need to have a public consultation immediately, in June 2024, and you must commit to installing the full corridor in Spring 2025 from Danforth Ave at Victoria Park Ave to Kingston Rd at Scarborough Golf Club Rd.

And we need a far more ambitious 2025-2027 Cycling Network Plan. Too many people are being injured and killed on our streets while our businesses struggle to attract foot traffic and we all stray further from our climate action goals. We need you to have a better plan.

Please move forward immediately with a public consultation for the Danforth Kingston Complete Street in June 2024 and full installation in Spring 2025, and please bring forward a more ambitious 2025-2027 Cycling Network Plan.

Thank you.
