Torontonians were concerned about a \$600,000 Dollar price tag for renaming Dundas Square Sankofa?

Councillor Colle and company just added a bunch of motions that will create a 5 year plan that will eventually become a 10 year program and then attempt to match the 25 year program that handed funding to the ongoing funding for equity-deserving-communities.

When he and his supporters are done the present \$600,000 Dollars will be closer to \$60,000,000 Million Dollars and counting.

Councillors Moise, McKelvie, Perks, Colle, Fletcher, Malik, Matlow, Ainslie and of course, Olivia Chow, Mayor of Toronto (in case anyone forgot who is running this circus) supported the amendment that would add, for starters, a 5 year plan.

Hidden within the baffle-garb of politicians is the intent to fund a propaganda program to indoctrinate Torontonians who insist this is a waste of money and those who know it is a corruption of process.

Olivia Chow, the Mayor, continues to insist there were perhaps as many as 20 qualified academics involved in the investigation of the Dundas Fiasco.

There were only two allowed by City Staffer Cheryl Blackman. Dr. Melanie Newton was one of the cherry-picked academics who from the beginning disgraced herself, profession and associated university when she vandalized a Wikipedia page, was caught and still refused to step away from a tainted process.

The only other academic allowed by Cheryl Blackman was Dr. Stephen Mullen of Scotland and is the one who misled Toronto. When Mullen was exposed by renowned academics such as Angela McCarthy he backed away from his unsupportable misrepresentation of the Henry Dundas history.

All of the elected Council Members were given substantial proof of this corruption of process, but they had predetermined their decision and are pushing on regardless of the harm they will do.

The Executive Committee Members received a petition with 30,000 signatures and more than 2,000 opinions all directed against renaming Dundas Square at any expense but the gang listed above wouldn't have any of it.

Councillor Fletcher attempted to make fun of the petition because those signing came from all over Ontario and not Toronto specifically. She hopes that Torontonians are either forgetful or

stupid and will not remember that the original petition of 14,000 signatures came from all over the world and less than 25% actually may have come from Toronto.

Councillor Moise called one of the deputants a racist because he had the temerity to voice an opinion that was not to the councillor's liking.

Olivia Chow, Mayor of Toronto and Chair of the Executive Committee Meeting declined to call Councillor Moise to Order and insist he apologize for his bad behaviour.

Councillor Myers had called Councillor Moise to Order for doing the same at a TTC Committee Meeting when the councillor took offence at a deputation he didn't like and called that deputant a racist.

Is this a pattern that elected Members of Council and those who occupy the Chair will continue to allow?

Offended citizens can't appeal with complaint to the Integrity Commissioner if the offense was committed during a Committee Meeting and the Chair of a Meeting refuses to maintain the integrity of the process or has no integrity themselves.

Torontonians do not have to wait until the next election to voice/exhibit their displeasure and contempt for a corruption of process at Toronto City Hall. (Former Mayor of Toronto, John Sewell, made that one clear.)

John De Marco
