Dear City Council,

Re: City Council December 17, 2024 - Item number EX 19.6 Assessment of Scarborough Rapid Transit Adaptive Reuse and Next Steps

The Scarborough Rosewood Community Association would like to lend our support for the future use of the former SRT corridor and skyway as a potential pathway for cycling and pedestrians, as well as possibilities for parkland/greenspace, small business operations, heritage and art installations. We support the positions of Agincourt Village Community Association, ACSA Community Services, and Institute for Inclusive Economies and Sustainable Livelihoods, University of Toronto, Scarborough, as outlined in their letters submitted to the Executive Committee last week.

This is a project that all of Scarborough will get behind! We urge you not to miss this opportunity for improvements in Scarborough and to take steps to investigate all the possibilities and advantages of using the existing infrastructure for improved connectivity and wellness for our residents.

Respectfully,

Alura Moore

President, Scarborough Rosewood Community Association
