Summary

The purpose of this report is to recommend the additional approvals required to give effect to the 2024 Budget and includes the following matters:

2024 Property Tax Rates and Related Matters: City Council is required to enact a by-law levying the property tax rates to raise the amount of tax revenue set out in the City's budget. The recommendations in this report request the approval of 2024 municipal tax ratios and tax rates arising from the 2024 Mayor's Proposed Budgets. This report also recommends annual property tax policy decisions.

2024 User Fees: User fees are monitored and adjusted for price changes through the annual budget process. This includes final rates and service fees for Rate Supported Programs for Toronto Water and Solid Waste Management Services. The budget process prompts assessment of existing fees resulting in recommended changes to existing fees and the introduction of new fees. The estimated revenues from user fees are outlined in the 2024 Mayor's Proposed Budget and are reflected in the 2024 Budget Notes. Under the City of Toronto Act, 2006, City Council must still approve the imposition of user fees, including new user fees and changes to existing user fees, as required to raise the user fee revenue to give effect to the City's budget. This approval is requested as part of this report.

Intergovernmental Infrastructure Funding: An annual summary of federal and provincial intergovernmental infrastructure funding programs which are identified in the 2024-2033 Capital Budget and Plan, as set out in the 2024 Mayor's Proposed Budget (the "2024-2033 Capital Budget and Plan"), is included as part of this report in Appendix C.

Other Items Requiring Council Direction: This report also makes recommendations with respect to matters related to the 2024 budget that do not fall under the strong mayor powers:

- Requests of Program specific report backs and interdivisional collaboration
- Provide authority to negotiate and execute specific capital project agreements
- Technical requests to allocate and receive funding in Corporate Accounts
- Establishment of a new reserve fund
