Dear Members of The Compliance Audit Committee

Thank you for bringing this to my attention. It wasn't clear that by checking off the box on the website, to cover the charge card processing fee, that the processing fee would be added and it would make my donation exceed the allowable limit. My actual donation of 1,200 dollars was in compliance with the regulations. I did not realize the processing fee would be included as part of my donation. The 36.15 amount, is the amount the credit card company charged to process the 1,200 dollars, the maximum contribution to a candidate according to the regulations. I must admit I was very surprised to learn all of this, and had I known would have never checked off that I would pay the credit card processing fee. Please accept this sincere apology for not understanding that credit card charges are added to your contribution. I would appreciate if you took this letter into consideration at your meeting. Please feel free to contact me if you have any questions. I hope there will be improved measures in place or information available next time to help individuals, potential donors better understand that charge card processing fees etc. will be added to your contribution amount and could put you over the allowable limit to contribute to a candidate. Many thanks for your consideration.

Respectfully
