Total	358.9	

City of Toronto's Operating Variance report summarizes Donation funds that are received and spent or forecasted to be spent in the fiscal period, which have been collected in the current and prior fiscal years. In some instances, the Program/Agency will wait to have an accumulated amount of material donations before being able to include it in the current budget for spending. Additionally, the Operating Variance reports include donations that do not receive a tax receipt and do not include donations over \$50,000, as anything over this limit requires Council's approval. Further details and additional reporting on funds donated to the City, can be found on the Donation Activity Report: <https://www.toronto.ca/business-economy/partnerships-sponsorships-donations/donate/donation-activity-report/>
