Re: All-Way Stop Controls on Strathburn Blvd

To the Chair and Members of Etobicoke York Community Council:

BACKGROUND:

Over the years countless residents have contacted me concerned about the safety of Strathburn Blvd. This street is home to a well-used park and a school where cars line the street each morning and afternoon. Strathburn Blvd is also the main connecting road through the neighbourhood, and used as a short-cut to avoid traffic on Weston Rd.

Speeding, numerous pedestrians and a lack of controlled intersections have led to a precarious situation along the street. Though we have made some changes to the street including updating parking rules, adding an all-way stop and Vision Zero improvements, the issues persist. I am recommending the committee authorize two All-Way stops along Strathburn Boulevard, where there are already existing Two-Way stops.

RECOMMENDATIONS:

1. Etobicoke York Community Council authorize an all-way compulsory stop control at the intersection of Strathburn Boulevard at Aura Lea Boulevard.
2. Etobicoke York Community Council authorize an all-way compulsory stop control at the intersection of Strathburn Boulevard at Sunset Trail.

Sincerely,

Anthony Perruzza
City of Toronto Councillor
Ward 7, Humber River - Black Creek
