Re-Opening Item HL7.4 on Toronto Public Health Strategic Planning to Amend Committee Appointments

Dear Chair & Board of Health Directors,

Established by the Board of Health at its meeting on October 23, 2023 through Item [HL7.4](#), the Strategic Plan Development Committee, provides advice and makes recommendations on developing a strategic plan to the Board of Health. The recommended strategic plan will meet the Board's responsibilities under the Ontario Public Health Standards and guide Toronto Public Health from 2024 – 2028.

Director Charles Ozzoude is currently taking a leave of absence from the Board of Health. In order to ensure that the committee will benefit from a full membership for the remainder of its mandate, I am recommending that Director Stephanie Zhou take his place on the committee. This change has been discussed with both directors in advance.

REQUIRES RE-OPENING:

Item 2023.HL7.4 (October 23, 2023 Board of Health Meeting) only as it pertains to the appointed Board of Health Directors.

RECOMMENDATIONS:

1. The Board of Health reopen Item HL7.4, titled "Toronto Public Health Strategic Planning" with respect to Part 3 of the decision of the Board of Health
2. The Board of Health amend Part 3 by replacing "Director Charles Ozzoude" with "Director Stephanie Zhou".

Sincerely,

Alejandra Bravo

Chair, Board of Health – Strategic Plan Development Committee
City Councillor (Ward 9, Davenport)
