Approved for Future Implementation

The following projects have approved Environmental Assessments or other Council-approved studies and projects that are expected to be completed beyond the current 2025-2027 near-term program. Some require detailed design processes, while others are dependent on sequenced or bundled work for implementation.

Project Name	STREET	FROM	TO	METRES
Beecroft Extension	BEECROFT RD	FINCH AVE	DREWRY AVE	911

Projects of Secondary Priority Consideration

This table identifies projects of secondary priority not included in the 2025-2027 Program, which may be brought into consideration in the event that a number of currently programmed projects are deferred due to capital coordination conflicts or a further increase in capacity, provided that these changes take place early in the 2025-2027 timeframe.

PROJECT NAME	STREET	FROM	TO	METRES
