Congestion Management Dashboard

Share Print Translate

The City is facing an unprecedented amount of construction road closures creating congestion issues for motorists, cyclists and pedestrians and surface street transit. There has also been a significant demand for special events in the City post-pandemic with the needs for road closures and more comprehensive traffic management strategies to minimize the impacts. This situation emphasizes the demand for better coordination of access to the right-of-way and the need for improved traffic management overall to help

Congestion Management Tools (Year-to-Date)

Smart Signals 89 <small>Last Reported: 2024-09-01</small>	Intelligent Intersections 222 <small>Last Reported: 2024-09-01</small>	Left-Turn Arrow Installations 20 <small>Last Reported: 2024-09-01</small>
