RE: IE14.3 - Cycling Network Plan Update 2025 - 2027

Deputy Mayor and Chair McKelvie and members of the Infrastructure and Environment Committee,

I strongly support the staff recommendation to extend the Midtown Yonge Complete Street north to connect with Eglinton as part of the 2025 - 2027 Cycling Network Plan Update. I am also pleased to see a new bikeway proposed for Davisville that will provide safer ways for people to access the Midtown Yonge Complete Street. Combined, these improvements will encourage more trips of 5 km or less to be completed by transit, bike and on foot – a key component of the City's TransformTO Net-Zero Plan, as well as contributing to Toronto's Vision Zero Road Safety Plan.

However, I am discouraged that so little progress is being made on transforming the rest of Yonge into a complete street that serves the mobility needs of everyone. Yonge is a destination and a connection among our neighbourhoods. It will best serve residents and visitors if it is an unbroken corridor for all of us - pedestrians, transit users, cyclists, and drivers - to enjoy. In addition to supporting the current staff recommendations for Yonge Street and Davisville Avenue, I ask that you request Transportation Services explore ways to accelerate the remaking of Yonge Street as a complete street from Front to Queen, College to Bloor, and Eglinton to Sheppard. Let's complete the complete street!

Thank you for your consideration.
