RE: Infrastructure and Environment Committee of City Council Item IE14.4.

We are writing to you as [Parkdale High Park 4 Climate Action](#). We work on environmental issues in Ward 4. Addressing climate change is an overarching goal of PHP4CA. For this reason we support the West Parkdale Cycling Connections project.

The project addresses climate change and promotes the city's TransformTO goals. Specifically the project facilitates active transportation via improvements in connected cycling infrastructure which offers alternatives to personal vehicles.

We encourage the Infrastructure and Environment Committee to support the West Parkdale Cycling Connections project.
