Ward 11, University-Rosedale

RE: Section 37 Funding for Jesse Ketchum Junior and Senior Public School

Dear Councillor Saxe,

I am writing to let you know that John Caliendo and the ABC Residents' Association has the enthusiastic support of the TDSB for new synthetic track and exercise areas at Jesse Ketchum Junior and Senior Public School.

The TDSB is supporting this project by combining it with the replacement of the artificial turf field at the school.

Together with a new field, a new upgraded track, and new exercise areas, Jesse Ketchum will not only have excellent outdoor facilities for students, but for the entire community to enjoy after school hours.

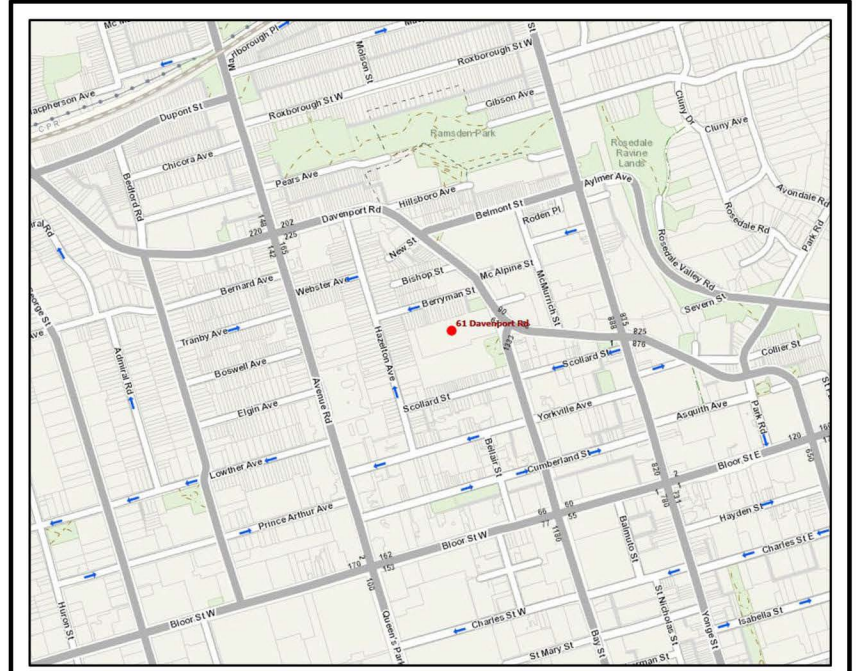

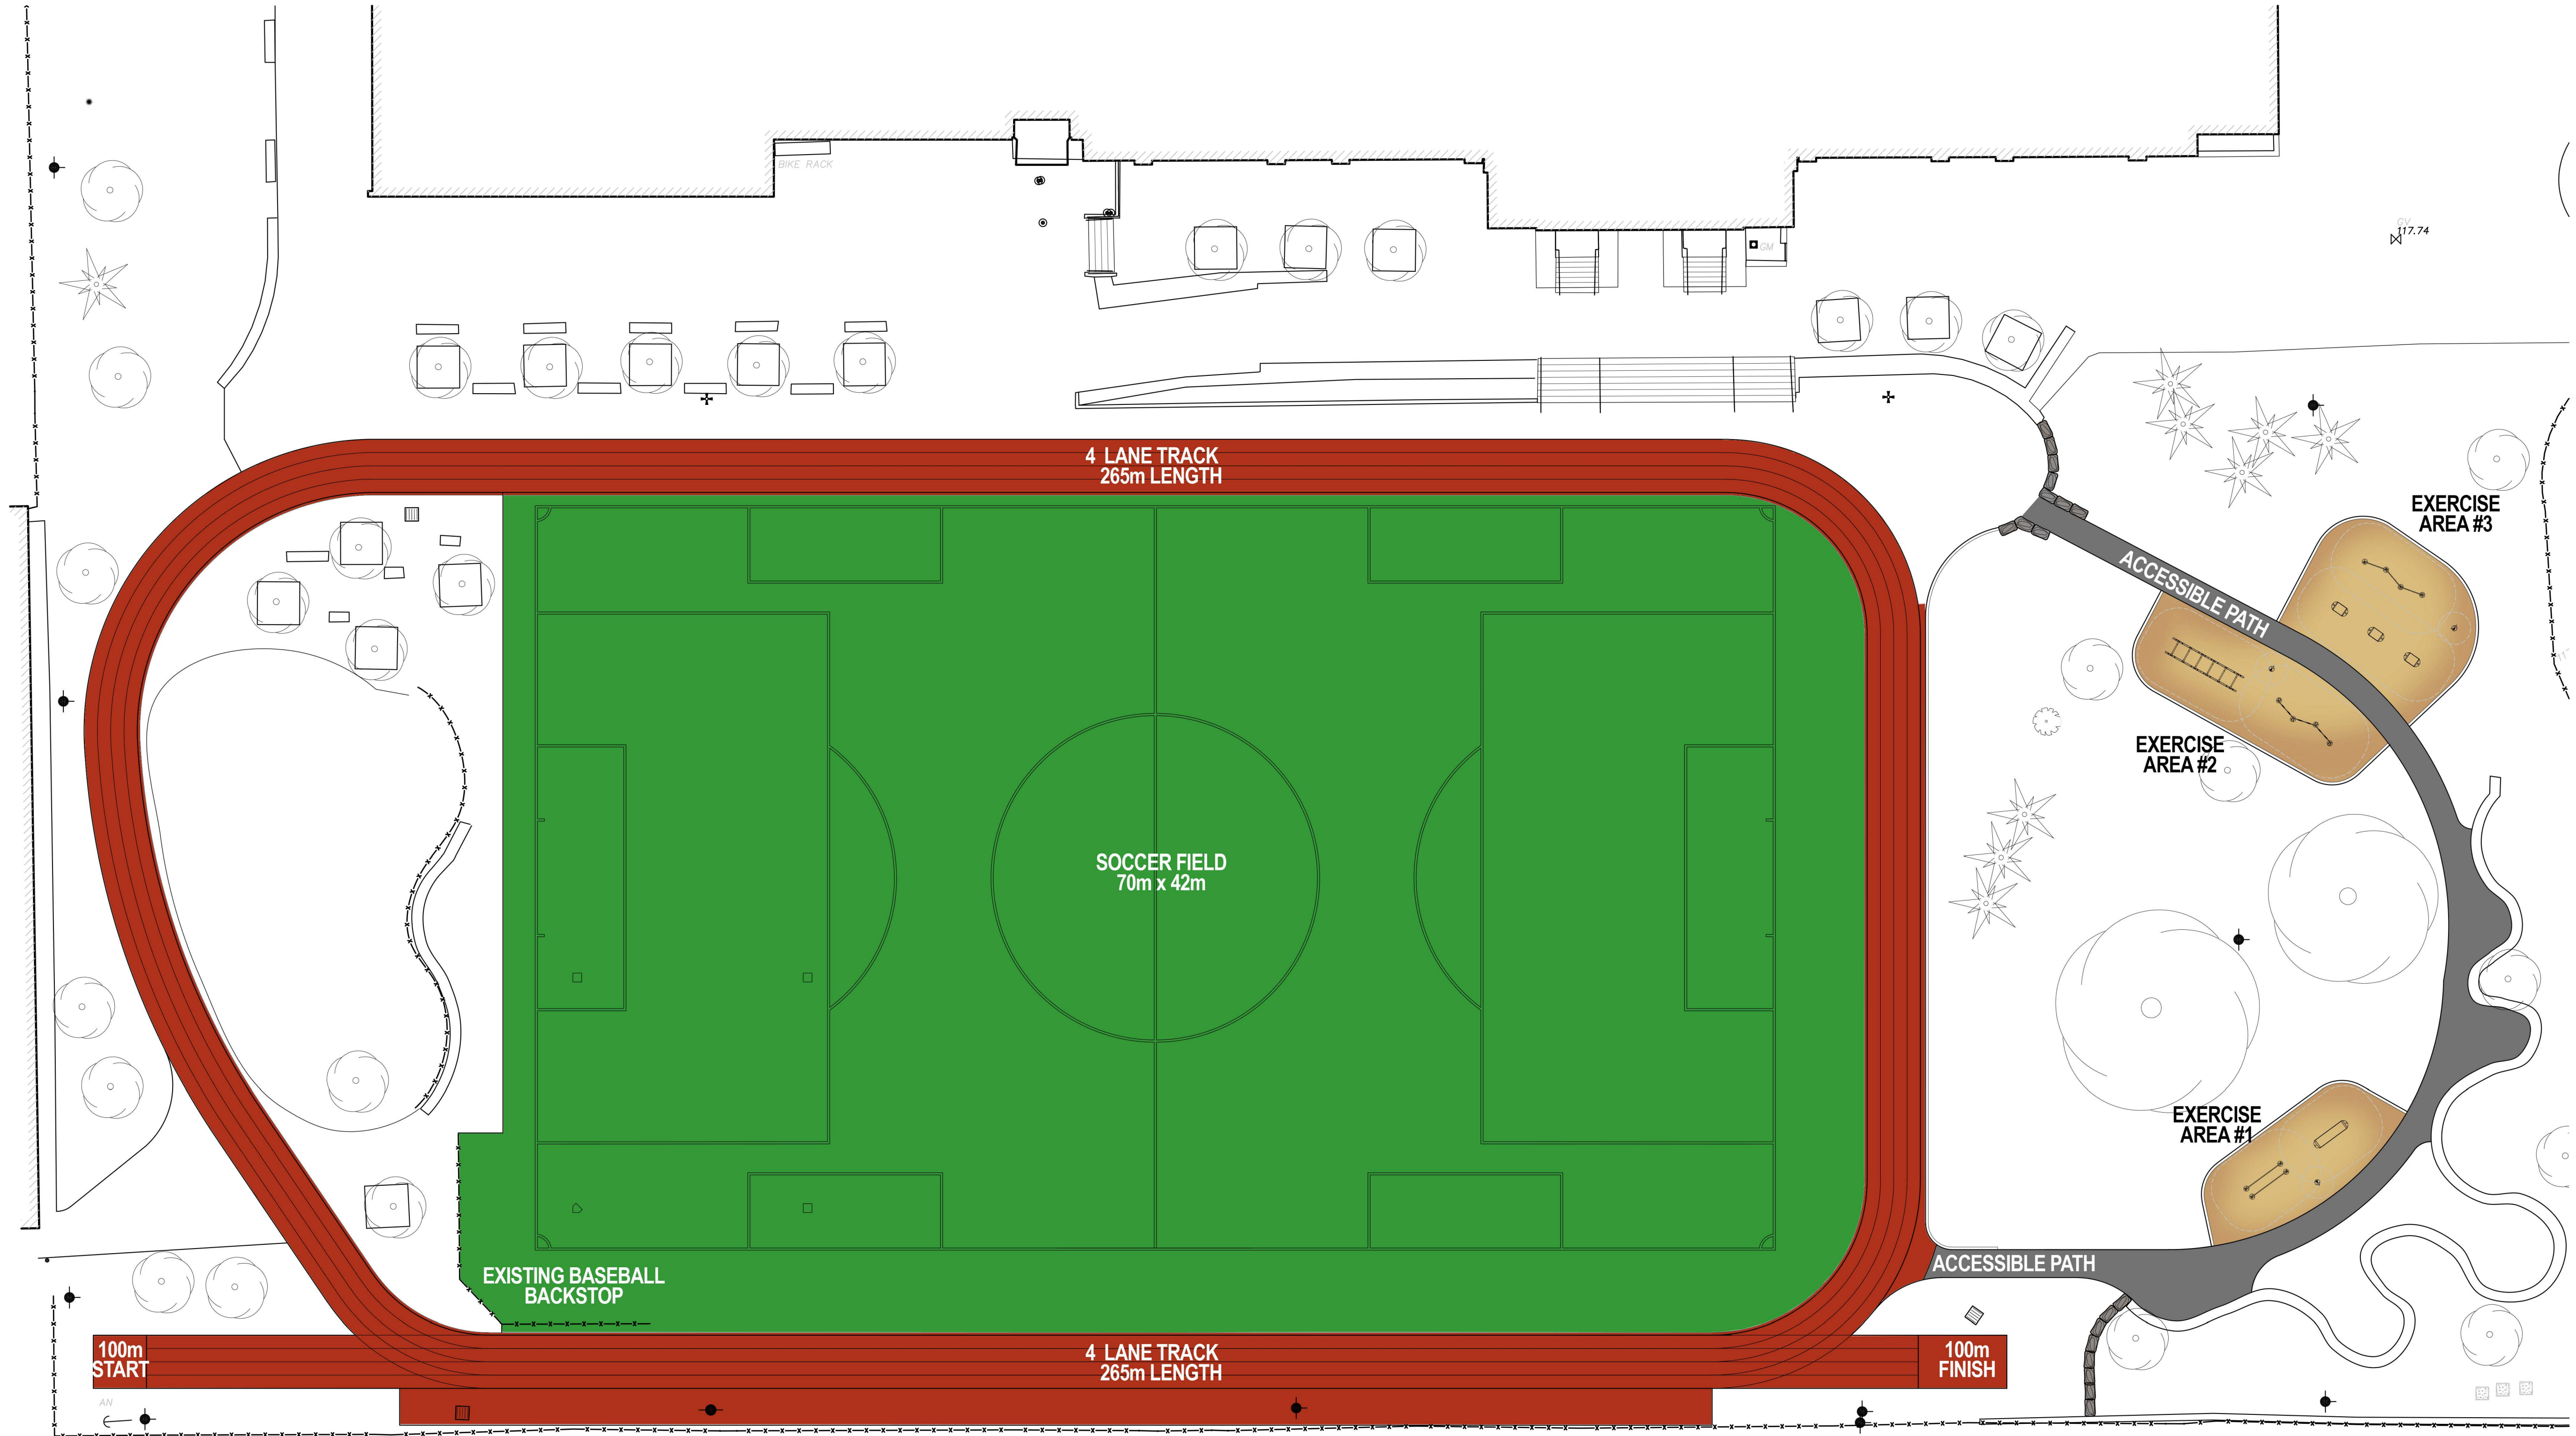

A contribution of \$300,000 in section funding for the new track and exercise equipment will be an extremely valuable and generous contribution to this project.

For your information, I have attached the schematic design for this project below. If you have any questions, I can be reached at richard.christie@tdsb.on.ca or 416-571-0374.

Sincerely,

Richard Christie
Senior Manager, Sustainability
Toronto District School Board
