Request for Updates on Northern Segment of the Ontario Line - by Councillor Jaye Robinson, seconded by Councillor Jon Burnside

** Notice of this Motion has been given.*

** This Motion is subject to referral to the North York Community Council. A two-thirds vote is required to waive referral.*

Recommendations

Councillor Jaye Robinson, seconded by Councillor Jon Burnside that:

1. City Council direct the Chief Planner and Executive Director, City Planning, in consultation with the Executive Director, Transit Expansion, to report to North York Community Council with updates on the status and progress of the Province's Transit-Oriented Communities proposals as well as design and construction of the northern segment of the Ontario Line within the boundaries of North York.

Summary

The Ontario Line is a 15.6-kilometre Provincial subway project that will span 15 stations from Exhibition Place to the Ontario Science Centre. Currently, Metrolinx is beginning work on the Elevated Guideway and Stations project, which includes the Thorncliffe Park, Flemingdon Park, and Ontario Science Centre Stations, as well as a proposed Transit-Oriented Community in Thorncliffe Park.

Both residents and the local City Councillors would benefit from regular updates to North York Community Council on these projects as construction gets underway. In addition, City staff should continue including updates on the northern segment of the Ontario Line in other related reports to Committee and Council.
