Subject: RE: Proposed traffic Calming on Norcross Road and Dunsmore Gardens.

Good afternoon Lekhdip,

We have received and reviewed the proposal for installation of speed humps on Norcross Road and Dunsmore Gardens, with the following comments:

Norcross Rd and Dunsmore Gardens, appear to primarily service the residents that reside on these roadways and would not impact response times for other community members. It is important that the applicant understand that the installation of traffic calming devices will reduce the speed that emergency vehicles travel when responding to emergencies on roadways where they are installed.

Toronto Paramedic Services is supportive of community initiatives that improve the safety of all citizens of, and visitors to, the City of Toronto. Traffic and pedestrian safety are key components of a healthy neighbourhood, and we endeavour to support the wishes of the community to implement measures to improve upon these components.

Please reach out to me if you have any questions,
