---

Dear all,

The frat houses in our neighbourhood, particularly the Delta Kappa Epsilon at the corner of Lowther and St. George, are filthy and a noise nuisance. Our house on Admiral Road backs on to the Delta Kappa Epsilon and our guest room faces west on it. A house guest, who recently stayed with us on a Saturday night, confessed that he had not slept because of the noise: shouting, loud music and clanging of metallic objects...

This is simply unacceptable behaviour in a residential area. We don't understand why we cannot regulate these types of houses. This has been going on much too long and residents have been extremely patient.

Please let's do something about it right away!

The R. Hon. Adrienne Clarkson & John Ralston Saul
