RE: Increasing Traffic Safety on Scottfield Drive

Dear Scarborough Community Council Colleagues,

The importance of safety for our seniors and families as they walk and drive on our streets is paramount. Given the number of seniors' residences, long term care facilities, townhomes and businesses that line Scottfield Drive, there is ongoing concern that the vehicular traffic in this area needs to be slowed in order to increase safety.

This motion is a direct response to community concerns by calling for safety adjustments on Scottfield Drive between Middlefield Road and Finch Avenue East to ensure the safety of local residents and all road users.

Recommendations:

1. Scarborough Community Council prohibit parking at all times on the west side of Scottfield Drive between a point 136 metres south of Finch Avenue East and a point 65 metres further south.
2. Scarborough Community council authorize the installation of speed humps on Scottfield Drive between Middlefield Road and Finch Avenue East.
3. Scarborough Community Council direct the City Solicitor to prepare a by-law to alter the roadway for the installation of seven speed humps on Scottfield Drive, between Middlefield Road and Finch Avenue East, generally as shown on the attached Drawing Nos. TC-312 and TC313 dated June 2024.

Sincerely

Jamaal Myers
Toronto City Councillor, Ward 23, Scarborough North
