SUBJECT: Polling Results for Watson Street Speed Humps

Dear Scarborough Community Council,

Upon receiving study results from City of Toronto Transportation Services Staff recommending the installation of speed humps on Watson Street, my office conducted a poll for those living on Watson Street to gauge resident support for the installation.

Based on the responses received, below are the results of the poll, conducted from June 14th to July 5th, 2024:

Percentage voting 'YES': 91%

Percentage voting 'NO': 9%

Based on these results, I support Staff's recommendation to install nine speed humps on Watson Street between Old Kingston Road and Ellesmere Road.

Sincerely,

Jennifer McKelvie
Deputy Mayor, City of Toronto
City Councillor, Scarborough-Rouge Park
