Orde Street Public School Traffic Calming

Summary:

Parents of students attending Orde St Public School have expressed grave concerns about safety outside the school's main entrance.

Every day, approximately 350 children enter and exit the school through its main entrance, which is located on a high-traffic laneway adjacent to a busy parking lot. Numerous vehicles speed through this laneway, posing significant risks to our children. There have already been several near-miss accidents, and it's only a matter of time before a more severe incident occurs.

Transportation Services agrees that children's safety in this area can be improved by installing speed humps in the laneway close to the school entrance.

Recommendation:

1. Toronto and East York Community Council authorize the installation of speed bumps in the first laneway west of University Avenue, north of Orde Street, at the locations shown on Attachment 1 - Drawing No. TC-224, dated November 2023, from the Director, Traffic Management, Transportation Services, Toronto and East York District.

Councillor Dianne Saxe
Ward 11, University-Rosedale
