## Royal Ontario Museum door and canopy

Dear Toronto and East York Community Council members:

I am writing to you today to request your support in permitting the Royal Ontario Museum to install energy-saving revolving doors and a canopy over the entrance to protect patrons and passersby from ice and snow falling from the Crystal. The current zoning bylaw, 340-2003, does not allow any protrusions from the existing building envelope.

### **RECOMMENDATION:**

It is recommended that:

1. Council request the Chief Planner and Executive Director, City Planning to work with the Royal Ontario Museum to permit the Royal Ontario Museum, at 100 Queen's Park Crescent, to install energy-saving revolving doors and a protective canopy over the entrance to protect patrons and passersby from ice and snow falling from the Crystal.
