## RE: All-Way Stop Control on Lauder Avenue at Cloverlawn Avenue and Rosecliffe Avenue

Dear Chair and Members of Toronto and East York Community Council,

Residents in Northcliffe Village have contacted my office to share concerns regarding speeding vehicles travelling along Lauder Avenue just south of Rogers Road.

In working with the Northcliffe Residents Association and local residents, it was determined there is an immediate need for all-way stop control on Lauder Avenue at Cloverlawn Avenue and Rosecliffe Avenue. These two intersections are frequently used by children and parents crossing Lauder as they head towards Rawlinson Community School. Parents have reported that many vehicles speed through the intersections, resulting in dangerous close calls.

As work on long-term improvements continue through the Oakwood Village Streets Plan, the addition of stop signs at these intersections will improve safety. As such, I respectfully request your support on the following recommendation.

### RECOMMENDATION

It is recommended that Toronto and East York Community Council:

1. Authorize all-way compulsory stop control at the intersection of Lauder Avenue and Cloverlawn Avenue.
2. Authorize all-way compulsory stop control at the intersection of Lauder Avenue and Rosecliffe Avenue.

Sincerely,

**Alejandra Bravo**  
City Councillor
