Cycling Safety Around the Ontario Line Project

Dear Councillor Moise and Toronto and East York Community Council,

The Ontario Line at Dundas and Logan is a major construction project for commuters travelling east and west.

While most car drivers are respectful of the shared road, there are always those few who contribute to difficult circumstances. One of my constituents reported almost being hit here.

There is currently no staff on site managing the traffic as there was during the previous phase of construction.

I am requesting the speed limit to be lowered to 20 km/h from Logan to Wardell. As well as a report to City Council to recommend implementation of flag persons indicating the mixed use of this street, Automated Speed Enforcement, and any other safety measures we can provide during this construction period.

RECOMMENDATION:

1. City Council reduce the speed limit on Dundas Street East from Logan Ave to Wardell Avenue to 20km/h.
2. City Council direct General Manager of Transportation Services to install large signage on each side of the bridge to indicate the reduced speed limit.
3. General Manager of Transportation Services report directly to City Council on additional changes to address the safety issues at this construction site including:
 - a. Allocating flag persons to ensure safety for all users of the road,
 - b. Automated Speed Enforcement.

- c. Reconfiguring the Work Zone to eliminate worker parking and minimize the length of the shared lane

Sincerely,

A handwritten signature in black ink that reads "Paula Fletcher". The script is cursive and fluid.

Paula Fletcher
