RE: Installation of Speed Humps on Perth Avenue, between Kingsley Avenue and Davenport Road

Dear Chair and Members of Toronto and East York Community Council,

For several years, residents on Perth Avenue, just south of Davenport Road, have requested traffic calming measures to reduce speeding and other dangerous driving behaviour in the area. This part of Perth Avenue is frequently used by residents, parents, and children walking towards Charles-Sauriol Elementary School or Pelham Avenue Playground – highlighting the urgent need for immediate traffic safety improvements.

Residents in the area voted strongly in support of speed humps as a traffic calming measure in a survey conducted by my office. The proposed six speed humps, which extend from Davenport Road to Kingsley Avenue, will help to significantly improve neighbourhood safety.

RECOMMENDATIONS

It is recommended that:

1. Toronto and East York Community Council authorize the installation of traffic calming (speed humps) on Perth Avenue, between Kingsley Avenue and Davenport Road.
2. Toronto and East York Community Council direct the City Solicitor to prepare a by-law to alter the roadway for the installation of six speed humps on Perth Avenue, between Kingsley Avenue and Davenport Road, generally as shown on the attached Drawing No. TC-261, dated August 2024 from the Director, Traffic Management, Transportation Services.

Sincerely,

Alejandra Bravo
City Councillor
Ward 9, Davenport
