Re: Speed Hump Installation – Castle Frank Road between Dale Avenue and Hawthorn Avenue.

Dear Toronto and East York Community Council members:

Summary: Toronto and East York Community Council approved speed humps on Castle Frank Road, between Drumsnab Road and Dale Avenue. The decision document can be found here: [TE33.76](#)

Subsequently, residents contacted my office requesting additional speed humps be installed on Castle Frank Road between Dale Avenue and Hawthorne Avenue to slow down drivers and mitigate the volume of vehicular entry into the area by drivers seeking a cut-through.

RECOMMENDATIONS:

It is recommended that:

1. Toronto and East York Community Council authorize the installation of traffic calming (a speed hump) on Castle Frank Road between Dale Avenue and Hawthorn Avenue
2. Toronto and East York Community Council direct the City Solicitor to prepare a by-law to alter sections of the roadway on Castle Frank Road between Dale Avenue and Hawthorn Avenue, to install four speed humps, generally as shown on the attached Drawing No.TC328 dated August 2024 from the Director, Traffic Management, Transportation Services.

Thank you,
