Re: Speed Hump Installation – Manning Avenue between Bloor Street West and Barton Avenue

Dear Toronto and East York Community Council members:

Residents on Manning Avenue are frustrated by frequent speeding on their street endangering pedestrians and cyclists. They have requested the installation of speed humps, which Transportation Services agree would be feasible. Speed humps have made surrounding streets safer and residents are eager to see them installed on Manning Avenue.

RECOMMENDATIONS:

It is recommended that:

1. Toronto and East York Community Council authorize the installation of traffic calming (speed humps) on Manning Avenue, between Bloor Street West and Barton Avenue.
2. Toronto and East York Community Council direct the City Solicitor to prepare a by-law to alter the roadway on Manning Avenue, between Bloor Street West and Barton Avenue, to install six speed humps, generally as shown on the attached Drawing No. TC-367 dated October 2024 from the Director, Traffic Management, Transportation Services.

Sincerely,

A handwritten signature in black ink that reads "D Saxe". The signature is fluid and cursive, with the first name "D" and last name "Saxe" clearly legible.
