Re: Speed Hump Installation – Manning Avenue, between College Street and Bloor Street West

Monday, December 2, 2024

Dear Toronto and East York Community Council members:

Residents on Manning Avenue are frustrated by frequent speeding on their street endangering pedestrians and cyclists. They have requested the installation of speed humps, which Transportation Services agree would be feasible. Several streets in the surrounding area have benefited from the traffic calming effects of speed humps, and residents are eager to see them installed on Manning Avenue.

RECOMMENDATIONS:

It is recommended that:

1. Toronto and East York Community Council authorize the installation of traffic calming (speed humps) on Manning Avenue, between College Street and Bloor Street West.
2. Toronto and East York Community Council direct the City Solicitor to prepare a by-law to alter the roadway on Manning Avenue, between College Street and Bloor Street West, to install fifteen speed humps, generally as shown on the attached Drawing Nos. TC-430, TC-431 and TC-432 dated November 2024 from the Director, Traffic Management, Transportation Services.

Attachment 1: Drawing No. TC-430 dated November 2024 from the Director, Traffic Management, Transportation Services
