Toronto and East York Community Council  
City Hall, Committee Room 1  
100 Queen Street West  
Toronto ON M5H 2N2

Dear Committee Members,

**Re: Implementing Traffic Calming in Regent Park – Nicholas Avenue and Sumach Street**

I am writing to request speed humps on Nicholas Avenue, between Shuter Street and Wyatt Avenue as well as Sumach Street, between Shuter Street and Dundas Street East.

Pedestrian safety has been a critical focus of my office. While reviewing existing traffic calming in Regent Park, my staff, in discussion with community members and with lived experience, identified these two streets for potential traffic calming measures. Future traffic calming measures will be considered as Regent Park Phases 4 and 5 moves forward.

**RECOMMENDATION**

It is recommended that:

1. Toronto and East York Community Council authorize the installation of traffic calming (speed humps) on Nicholas Avenue, between Shuter Street and Wyatt Avenue.
2. Toronto and East York Community Council direct the City Solicitor to prepare a by-law to alter the roadway on Nicholas Avenue, between Shuter Street and Wyatt Avenue, to install three speed humps, generally as shown on the attached Drawing No. TC-427 dated November 2024 from the Director, Traffic Management, Transportation Services.
3. Toronto and East York Community Council authorize the installation of traffic calming (speed humps) on Sumach Street, between Shuter Street and Dundas Street East.

4. Toronto and East York Community Council direct the City Solicitor to prepare a by-law to alter the roadway on Sumach Street, between Shuter Street and Dundas Street East, to install four speed humps, generally as shown on the attached Drawing No. TC-426 dated November 2024 from the Director, Traffic Management, Transportation Services.

Thanks,

Chris Moise  
City Councillor  
Ward 13 - Toronto Centre

CM/el
