RE: Installation of Speed Humps on Harrison Street, between Dovercourt Road and Ossington Avenue

Dear Chair and Members of Toronto and East York Community Council,

Residents on Harrison Street contacted my office to share their concerns regarding traffic safety issues on their street. They have shared their experiences with near accidents involving speeding vehicles off of Ossington Avenue using this local street to avoid traffic. These concerns highlight the immediate need for traffic calming measures on Harrison Street.

In a poll conducted by my office, nearly 90 percent of participating Harrison Street residents voted in support of installing speed humps to help reduce speeding and improve safety in this growing neighbourhood.

RECOMMENDATIONS

It is recommended that:

1. Toronto and East York Community Council authorize the installation of traffic calming (speed humps) on Harrison Street, between Dovercourt Road and Ossington Avenue.
2. Toronto and East York Community Council direct the City Solicitor to prepare a by-law to alter the roadway for the installation of four speed humps on Harrison Street, between Dovercourt Road and Ossington Avenue, generally as shown on the attached Drawing No. TC-394, dated November 2024 from the Director, Traffic Management, Transportation Services.

Sincerely,

Alejandra Bravo
City Councillor
Ward 9, Davenport
