RE: Installation of Speed Humps on Rusholme Road, between Dundas Street West and College Street

Dear Chair and Members of Toronto and East York Community Council,

Rusholme Road sits between two busy streets, Dundas Street West to the south and College Street to the north. Drivers often use Rusholme Road, which is designated as a local street, to avoid travelling through major intersections in the area. This increased reliance on Rusholme Road has resulted in growing traffic safety issues for residents, including speeding through stop signs, racing, and aggressive driving. As many young children live on and walk down Rusholme Road, residents have long advocated for immediate traffic safety improvements.

In a neighbourhood survey conducted by my office, residents along this section of Rusholme Road voted in strong support of installing speed humps to reduce speeding and improve traffic safety.

RECOMMENDATIONS

It is recommended that:

1. Toronto and East York Community Council authorize the installation of traffic calming (speed humps) on Rusholme Road, between Dundas Street West and College Street.
2. Toronto and East York Community Council direct the City Solicitor to prepare a by-law to alter the roadway for the installation of six speed humps on Rusholme Road, between Dundas Street West and College Street, generally as shown on the attached Drawings No. TC-391 and No. TC-392, dated November 2024 from the Director, Traffic Management, Transportation Services.

Sincerely,

Alejandra Bravo
City Councillor
Ward 9, Davenport
