To Whom It May Concern,

I am writing to express my strong support for the proposed 392-bed Long Term Care facility at 400 Broadview Avenue by Hennick Bridgepoint Hospital and Sinai Health. This facility is crucial for our community, providing essential services to our seniors, allowing them to age within their community and maintain close connections with their families and friends.

Fontbonne Ministries, dedicated to serving seniors and promoting community well-being, supports initiatives like this. Our extensive experience in providing compassionate care through programs such as Mustard Seed, a day program for seniors, and In Good Company, which offers companionship to isolated seniors, makes us well-placed to judge the potential impact and benefits of this proposed facility.

The proposal ensures that seniors receive high-quality care, supporting their overall health and well-being. The location leverages the existing infrastructure of Hennick Bridgepoint Hospital, ensuring efficient use of resources and easy access to care.

The detailed planning, including addressing traffic and parking concerns and integration with public transit, reassures me that this project is well-considered and beneficial for the broader community.

In conclusion, I fully support the Hennick Bridgepoint Hospital and Sinai Health's proposal for the new Long Term Care facility. This project will significantly benefit our community by providing much-needed care for seniors, allowing them to live with dignity and remain close to their loved ones.

Thank you for considering my support for this important initiative.

Sincerely,

*Hailee Morrison*
