Preliminary Toronto Public Health 2025 Operating Budget and 2025-2034 Capital Budget and Plan

Committee Decision

The Board of Health - Budget Committee recommends that:

1. The Board of Health request the Medical Officer of Health to prioritize working towards increasing the municipal contribution of the Student Nutrition Program to 20 percent.
2. The Board of Health reiterate its request in Item HL13.4 that the Government of Canada expand the National School Food Program to provide funding for a universal program which would provide nutritious meals for every school-aged child.
3. The Board of Health request the Province of Ontario to increase its grant funding investment to the Student Nutrition Program proportionally to match the increased City of Toronto investment and further request the Province of Ontario provide increased funding to address the inflationary cost of food.
4. The Board of Health direct the Medical Officer of Health, in coordination with the City Manager, to engage the Government of Canada on the 2024 Federal Budget commitment of \$79 million for student nutrition programs, which has not flowed, and negotiate with the Provincial and Federal Governments for Toronto's allocation of this funding.
