D: Statements of Contribution

Statements of contribution provide a brief description and rationale for how each *contributing property's* demonstrates or supports the character, *cultural heritage values*, and *integrity* of the HCD. They also help to determine how the *policies* and *guidelines* of an HCD Plan apply to each *contributing property*. *Contributing properties* within the District were evaluated according to the criteria listed in Ontario Regulation 9/06 section 3(1):

- i. The properties have design value or physical value because they are rare, unique, representative or early examples of a style, type, expression, material or construction method.
- ii. The properties have design value or physical value because they display a high degree of craftsmanship or artistic merit.
- iii. The properties have design value or physical value because they demonstrate a high degree of technical or scientific achievement.
- iv. The properties have historical value or associative value because they have a direct association with a theme, event, belief, person, activity, organization or institution that is significant to a community.
- v. The properties have historical value or associative value because they yield, or have the potential to yield, information that contributes to an understanding of a community or culture.
- vi. The properties have historical value or associative value because they demonstrate or reflect the work or ideas of an architect, artist, builder, designer or theorist who is significant to a community.
- vii. The properties have contextual value because they define, maintain or support the character of the district.
- viii. The properties have contextual value because they are physically, functionally, visually or historically linked to each other.
- ix. The properties have contextual value because they are defined by, planned around or are themselves a landmark.

141 Augusta Avenue

141 AUGUSTA AVENUE

Character Sub-Area: Market

Typology: House-form, Row

Construction Date: Pre-1889

Statement of Contribution: The property has value as a nineteenth-century House-form building that reflects vernacular interpretations of Victorian architectural styles. Through its construction date and typology, the property is associated with the District's early residential development from the 1850s to the early 1900s.

Constructed as the southernmost of seven identical rowhouses, the property has retained most of its original *building features* including a two-storey porch with decorative millwork, decorative brickwork, fenestration including stained-glass transoms, and a turreted attic dormer.

Contextually, the property is important in maintaining and supporting the historic mixed use character of the area and is physically, functionally, visually, and historically linked to the surrounding market area.

Summary:

Reference Number	Primary Address	Entrance Address(es)
1.	141 Augusta Avenue	N/A

145 & 147 Augusta Avenue (R-L)

145 & 147 AUGUSTA AVENUE

Character Sub-Area: Market

Typology: Converted House-form, Row

Construction Date: Pre-1889

Statement of Contribution: Each property has value as a nineteenth-century House-form building that has been modified to accommodate a commercial conversion. Through its construction date and typology, each property is associated with the District’s early residential development from the 1850s to the early 1900s. With its visibly layered built form, each property is also associated with the patterns of commercial adaptation and expansion that began in the early twentieth century.

Constructed as two of seven identical rowhouses, the properties have evolved over time while retaining original *building features* including their shared roofline and turreted attic dormers.

Contextually, each property is important in maintaining and supporting the historic mixed use character of the area and is physically, functionally, visually, and historically linked to the surrounding market area.

Summary:

Reference Number	Primary Address	Entrance Address(es)
2.	145 Augusta Avenue	N/A
3.	147 Augusta Avenue	N/A

153A & 153B Augusta Avenue (R-L)

153A & 153B AUGUSTA AVENUE

Character Sub-Area: n/a

Typology: House-form, Semi-detached

Construction Date: Pre-1889

Statement of Contribution: Each property has value as a nineteenth-century House-form building that reflects early workers' housing within the District. Through its construction date and typology, each property is directly associated with the District's early residential development from the 1850s to the early 1900s, which included a large concentration of workers' housing.

Constructed as a pair, the properties retain original *building features* including their shared hipped roofline and matching fenestration pattern.

Contextually, each property is important in maintaining and supporting the historic mixed use character of the area and is physically, functionally, visually, and historically linked to the District.

Summary:

Reference Number	Primary Address	Entrance Address(es)
4.	153A Augusta Avenue	N/A
5.	153B Augusta Avenue	N/A

175, 177, & 179 Augusta Avenue (R-L)

175, 177, & 179 AUGUSTA AVENUE

Character Sub-Area: Market

Typology: House-form, Semi-detached, Bay-and-Gable

Construction Date: Pre-1889

Statement of Contribution: Each property has value as a nineteenth-century House-form building that reflects vernacular interpretations of Victorian architectural styles. Through its construction date and typology, each property is associated with the District’s early residential development from the 1850s to the early 1900s.

Constructed as two semi-detached pairs, the properties retain most of their original *building features* including cross-gabled rooflines, double-height projecting bay window, brick cladding with decorative brickwork, and wooden bargeboards, paneling, and brackets.

Contextually, each property is important in maintaining and supporting the historic mixed use character of the area and is physically, functionally, visually, and historically linked to the surrounding market area.

Summary:

Reference Number	Primary Address	Entrance Address(es)
6.	175 Augusta Avenue	N/A
7.	177 Augusta Avenue	N/A
8.	179 Augusta Avenue	N/A

183 Augusta Avenue

183 AUGUSTA AVENUE

Character Sub-Area: Market

Typology: Converted House-form, Row

Construction Date: Pre-1889

Statement of Contribution: The property has value as a nineteenth-century House-form building that has been modified to accommodate a commercial conversion through a one-storey commercial *addition*. Through its construction date and typology, the property is associated with the District's early residential development from the 1850s to the early 1900s. With its visibly layered built form, the property is also associated with the patterns of commercial adaptation and expansion that began in the early twentieth century.

Constructed as one of seven identical rowhouses, the property has retained its gabled roofline.

Contextually, the property is important in maintaining and supporting the historic mixed use character of the area and is physically, functionally, visually, and historically linked to the surrounding market area.

Summary:

Reference Number	Primary Address	Entrance Address(es)
9.	183 Augusta Avenue	N/A

187 Augusta Avenue

187 AUGUSTA AVENUE

Character Sub-Area: Market

Typology: Converted House-form, Row

Construction Date: Pre-1889

Statement of Contribution: The property has value as a nineteenth-century House-form building that has been modified to accommodate a commercial conversion. Through its construction date and typology, the property is associated with the District’s early residential development from the 1850s to the early 1900s. With its visibly layered built form, the property is also associated with the patterns of commercial adaptation and expansion that began in the early twentieth century.

Constructed as one of seven identical rowhouses, the property has retained its gabled roofline.

Contextually, the property is important in maintaining and supporting the historic mixed use character of the area and is physically, functionally, visually, and historically linked to the surrounding market area.

Summary:

Reference Number	Primary Address	Entrance Address(es)
10.	187 Augusta Avenue	N/A

191 Augusta Avenue

191 AUGUSTA AVENUE

Character Sub-Area: Market

Typology: House-form, Semi-detached, Bay-and-Gable

Construction Date: Pre-1889

Statement of Contribution: The property has value as a nineteenth-century House-form building that reflects vernacular interpretations of Victorian architectural styles. Through its construction date and typology, the property is associated with the District's early residential development from the 1850s to the early 1900s.

The property has retained many of its original *building features* including its cross-gabled roofline, fenestration pattern, and double-height projecting bay window.

Contextually, the property is important in maintaining and supporting the historic mixed use character of the area and is physically, functionally, visually, and historically linked to the surrounding market area.

Summary:

Through its construction date and typology, the property is associated with the District’s early residential development from the 1850s to the early 1900s. With its visibly layered built form, the property is also associated with the patterns of commercial adaptation and expansion that began in the early twentieth century.

The property has evolved over time while retaining the legibility of its original form and certain *building features* including roofline with side gable and partial front gable.

The property has contextual value because it supports and maintains the historic mixed use character of the area. With its visible layering of residential and commercial built forms, the property is physically, functionally, visually, and historically linked to the surrounding market area.

Summary:

Reference Number	Primary Address	Entrance Address(es)
59.	198 Baldwin Street	N/A

2 Bellevue Avenue

2 BELLEVUE AVENUE

Character Sub-Area: n/a

Typology: House-form, Detached, Bay-and-Gable

Construction Date: Pre-1889

Statement of Contribution: The property has value as a nineteenth-century House-form building that reflects vernacular interpretations of Victorian architectural styles. Through its construction date and typology, the property is directly associated with the District's early residential development from the 1850s to the early 1900s.

The property has retained many of its original *building features*, including its cross-gabled roofline, projecting first-storey bay window, brick cladding with polychromatic brickwork, and segmentally arched window openings.

Contextually, the property shares a consistent *setback*, scale, and massing with the other *contributing properties* on the street. The property supports and maintains the residential character of the streetscape and is functionally, visually, and historically linked to the District.

5 Bellevue Avenue

5 BELLEVUE AVENUE (BELLEVUE SQUARE PARK)

Character Sub-Area: Market

Typology: Park/Open Space

Construction Date: n/a

Statement of Contribution: Bellevue Square Park has value as the largest and earliest planned public space within the District, which was donated by the Denison family to the City of Toronto in 1872. The property is directly associated with the early development of the District where its rectangular plan was formed by the piecemeal subdivision of Denison family's Belle Vue Estate by the 1850s.

Contextually, the property is physically, functionally, and historically linked to its surroundings where it is important and defining, maintaining, and supporting the distinct built form of the District as a complete community. The property serves as a public park and foreground to the *contributing properties* that frame its north, west, and south sides. A community landmark, Bellevue Square Park has social and community value as a green space with public amenities that are accessible to residents and visitors of the District.

25 Bellevue Avenue, 28 Denison Square

25 BELLEVUE AVENUE, 28 DENISON SQUARE

Character Sub-Area: n/a

Typology: Institutional

Construction Date: 1927

Existing Part IV Designation Status: Designated under Part IV in 1979 (By-Law 395-79)

Statement of Contribution: The property has *cultural heritage value* for its direct association with the Jewish community in Kensington Market. Commissioned by Jewish immigrants from Ukraine who settled in the area, it was designed by Jewish architect Benjamin Swartz. With its intact built form, *building features*, and continued use as a place of worship, the property yields information that contributes to the understanding of the important role Toronto's Jewish community played in the evolution of Kensington Market.

Constructed in the Byzantine Revival style, the property has retained most of its architectural details including red brick cladding with decorative brickwork and stonework, cupolas, towers, round arched and lunette window openings with stained and leaded glass windows, and raised front entrances with large split stairway. Completed in 1927 as the Kiever Shul, the property is one of only two remaining synagogues in the District.

Contextually, the property supports and maintains the historic self-contained neighbourhood character of the area. Built as a Synagogue when Kensington Market was the centre of Toronto's Jewish community, it is physically, functionally, visually, and historically linked to the District.

Framed by Bellevue Square Park and anchoring the corner Bellevue Avenue and Denison Square, the property is a landmark. The landmark status is enhanced by its social value as a continuing place of worship and community gathering place that has served members of Toronto's Jewish community since 1927.

61 Bellevue Avenue

61 BELLEVUE AVENUE

Character Sub-Area: Market

Typology: Converted House-form, Row

Construction Date: Pre-1889

Statement of Contribution: The property has value as a nineteenth-century House-form building that reflects vernacular interpretations of Second Empire and other Victorian architectural styles. The property was purpose-built for commercial use on the ground floor, which has been modified through subsequent ground floor *alterations*. Through its construction date and typology, the property is associated with the District's early residential development from the 1850s to the early 1900s. Erected as a mixed use building that provided commercial space before the development of the market area, the property yields information that contributes to the understanding of the evolution of Kensington Market.

Constructed as part of a row including the *adjacent* house-form buildings at 57 and 59 Bellevue Avenue, the property retains its mansard roofline with cornice, round arch dormer window openings with decorative wood surrounds, and brick cladding.

Contextually, the property supports and maintains the historic mixed use character of the area and is physically, functionally, visually, and historically linked to the surrounding market area. With storefronts that address both street facing elevations, the property anchors the southeast corner of Bellevue Avenue and Nassau Street. Constructed to meet the early commercial needs of the surrounding area, the property shares a consistent *setback*, scale, and massing with the other *contributing properties* on the street.

87 BELLEVUE AVENUE

Character Sub-Area: n/a

Typology: House-form, Detached

Construction Date: 1890-1903

Statement of Contribution: The property has value as a House-form building that reflects vernacular interpretations of Queen Anne Revival and other Victorian and early-twentieth-century architectural styles. Originally built as a private hospital and residence for Dr. Algernon Temple, in 1906, the building was altered and enlarged when it was converted into a senior's residence known as Bellevue House. Through its construction date and typology, the property is directly associated with the District's early residential development from the 1850s to the early 1900s. The property is also associated with the development of the District as a complete community that included residential, institutional, civic, and commercial uses.

The property retains many of its original *building features*, including mansard roofline with dormer windows, two-storey bay window, three-point arched window, flat headed window and door openings, brick cladding with decorative brickwork, and prominent three-storey open porch with pyramidal roof.

Contextually, the property shares a consistent *setback*, scale, and massing with the other *contributing properties* on the street. The property is important in maintaining and supporting the residential character of the streetscape and is functionally, visually, and historically linked to the District.

95 Bellevue Avenue

95 BELLEVUE AVENUE

Character Sub-Area: n/a

Typology: House-form, Detached

Construction Date: Pre-1889

Statement of Contribution: The property has value as a nineteenth-century House-form building that reflects vernacular interpretations of Victorian architectural styles, particularly Queen Anne Revival. Through its construction date and typology, the property is directly associated with the District's early residential development from the 1850s to the early 1900s. The property is also associated with its former owner, Dr. Henry Machell, a prominent Toronto physician who was one of the early supporters of the Hospital for Sick Children. First adapted to a nursery and day care centre in 1917, the property is also associated with the development of the District as a complete community that included residential, institutional, civic, and commercial uses.

The property retains many of its original *building features*, including its cross-gable roofline with dormer windows, two-storey projecting bay, fenestration pattern with segmental, round, and jack arched openings, decorative woodwork including window surrounds, bargeboards, brackets, and panels, and brick cladding with decorative brickwork and terracotta panel insets.

Contextually, the property shares a consistent *setback*, scale, and massing with the other *contributing properties* on the street. The property is important in maintaining and supporting the residential character of the streetscape and is functionally, visually, and historically linked to the District.

Summary:

Reference Number	Primary Address	Entrance Address(es)
101.	95 Bellevue Avenue	N/A

98 & 100 Bellevue Avenue (L-R)

98 & 100 BELLEVUE AVENUE

Character Sub-Area: n/a

Typology: House-form, Semi-detached

Construction Date: Pre-1889

Statement of Contribution: Each property has value as a nineteenth-century House-form building that reflects vernacular interpretations of Victorian architectural styles. Through its construction date and typology, each property is directly associated with the District’s early residential development from the 1850s to the early 1900s.

Each property retains most of its original *building features* including a cross-gable roofline, double-height bay window, segmentally arched openings, and brick cladding. 98 Bellevue Avenue also retains its decorative bargeboards.

Contextually, each property shares a consistent *setback*, scale, and massing with the other *contributing properties* on the street. Each property supports and maintains the residential character of the streetscape and is functionally, visually, and historically linked to the District.

106.	104 Bellevue Avenue	N/A

103 Bellevue Avenue

103 BELLEVUE AVENUE

Character Sub-Area: n/a

Typology: Institutional

Construction Date: 1858

Existing Part IV Designation Status: Designated under Part IV in 1977, amended 2006 (By-Law 16-2006; 380-77)

Statement of Contribution: St Stephen-In-The-Fields Church has value as an early and representative example of a Gothic Revival Church that has retained most of its original *building features* including steeply pitched roof, pointed lancet windows, stained-glass windows, stepped buttresses, radiating nave chapels, polychromatic roof, and polychromatic brickwork with stone detailing and bellcote. Completed in 1858 and rebuilt in 1965, it is the oldest place of worship in the District.

Constructed in 1858 by Robert Denison following the subdivision of his family's estate into residential lots, the property is directly associated with the District's early development. The property is also associated two of Canada's preeminent nineteenth-century architects: Thomas Fuller, who designed the original church in 1858, and the prolific church architect, Henry Langley, who oversaw the rebuilding of the church in 1865 following a fire.

Located on the southeast corner of Bellevue Avenue and College Street, the property anchors the entrance to Bellevue Avenue and is considered a landmark within the District. Among the earliest institutional buildings in the area, it is physically, functionally, and historically linked to its surroundings where it is important and defining, maintaining, and supporting the distinct built form of the District as a complete community. The property also holds community value as a continuing place of worship and for its community outreach programming.

132 Bellevue Avenue

132 BELLEVUE AVENUE

Character Sub-Area: n/a

Typology: Institutional

Construction Date: 1878

Statement of Contribution: The property has value as a fine example of a nineteenth-century fire station. The property is associated with the development of the District as a complete community that included residential, institutional, civic, and commercial uses.

Originally constructed between 1878 and 1889, the property was rebuilt to its original designs between 1973 and 1974 following a fire in 1972. The property retains its scale, form, massing, including square tower with four clock faces, and *building features* that reflect Victorian architectural styles including red brick cladding with decorative buff brickwork and stonework, round, flat headed, and segmentally arched window and door openings, ocular window, and wooden doors.

Located on the southwest corner of Bellevue Avenue and College Street, the property anchors the entrance to Bellevue Avenue and is considered a landmark within the District. Constructed to meet the infrastructure needs of the surrounding area, the property is visually, historically, and functionally linked to its surroundings and is important and defining, maintaining, and supporting the distinct built form of the District as a complete community.

594 Dundas Street West

594 DUNDAS STREET WEST

Character Sub-Area: Market

Typology: Commercial

Construction Date: Pre-1889

Statement of Contribution: The property has value as a rare and representative example of a purpose-built nineteenth-century commercial structure that reflects vernacular interpretations of Victorian architectural styles. Through its construction date, the property is directly associated with the early development of the District's from the 1850s to the early 1900s. The property also has associative value for its connection with original owner George Eakin Gibbard, who founded the Canadian Pharmaceutical Association and served as the President, Vice-President, and Registrar of the Ontario College of Pharmacy. Gibbard operated a drugstore out of 594 Dundas Street West and lived upstairs. He was known to have also run at least two other drugstores in the City.

The property retains most of its original *building features* including brick cladding with decorative brickwork and stonework, flat-headed and segmental-arched window and door openings, leaded glass transoms, ornamented cornice, chamfered corner, and commercial storefront facing Augusta Avenue and Dundas Street West.

Located on the northeast corner of Dundas Street and Augusta Avenue, the property anchors the entrance to Augusta Avenue, where it functions as a gateway into the market area. Contextually, the supports and maintains the historic mixed use character of the area and is physically, functionally, visually, and historically linked to the surrounding market area.

2 & 6 Hickory Street (L-R)

2 & 6 HICKORY STREET

Character Sub-Area: n/a

Typology: Multi-residential

Construction Date: 1904-1913

Statement of Contribution: Each property has value as an early-twentieth-century multi-residential building that reflects vernacular interpretations of Victorian and early-twentieth-century architectural styles. Through its construction date and typology, each property is directly associated with the District's early residential development from the 1850s to the early 1900s.

Constructed as a pair they retain most of their original *building features* including their mirrored facades, shared roofline, projecting double-height bay windows, brick cladding with stonework, and stone masonry, flat-headed window openings, and segmentally arched double entrances with brick voussoirs.

Contextually, the property supports and maintains the residential character of the streetscape and is functionally, visually, and historically linked to the District.

165.	6 Hickory Street	8 Hickory Street

2 Kensington Avenue

2 KENSINGTON AVENUE

Character Sub-Area: Market

Typology: House-Form, Detached, Bay-and-Gable

Construction Date: Pre-1889

Statement of Contribution: The property has value as a nineteenth-century House-form building that reflects vernacular interpretations of Victorian architectural styles. Through its construction date and typology, the property is directly associated with the District's early residential development from the 1850s to the early 1900s.

The property retains most of its original *building features* including its cross-gabled roofline, double-height bay window, fenestration pattern with segmentally arched openings, and decorative wooden gable brackets.

The property has contextual value because it supports and maintains the historic mixed use character of the area and is physically, functionally, visually, and historically linked to the surrounding market area.

3, 5, 7, & 9 Kensington Avenue (R-L)

3, 5, 7, & 9 KENSINGTON AVENUE and 560 DUNDAS STREET WEST

Character Sub-Area: Market

Typology: House-form (3-5 Kensington Avenue), Converted House-form (7-9 Kensington Avenue and 560 Dundas Street West), Row, Bay-and-Gable

Construction Date: 1890-1903

Statement of Contribution: Each property has value as a nineteenth-century House-form building that reflects vernacular interpretations of Victorian architectural styles. Through its construction date and typology, each property is associated with the District's early residential development from the 1850s to the early 1900s.

The properties at 7 and 9 Kensington Avenue and 560 Dundas Street also have value for the modifications made to accommodate a commercial conversion through a one-storey commercial *addition*. With its visibly layered built form, each of these properties is also associated with the patterns of commercial adaptation and expansion that began in the early twentieth century.

Constructed as a row of five buildings, the properties have evolved over time while retaining original *building features*, including cross-gabled rooflines, projecting bays, scallop clad gables, and flat headed fenestration with stone lintels and sills. 560 Dundas Street West and 9 Kensington Avenue, which bookend the row, also retain their decorative gable brackets while 3 and 5 Kensington Avenue have retained the projecting bay with window at the first storey.

Each property has contextual value because it supports and maintains the historic mixed use character of the area. With its visible layering of residential and commercial built forms, each property is physically, functionally, visually, and historically linked to the surrounding market area.

12 & 14 KENSINGTON AVENUE

Character Sub-Area: Market

Typology: Converted House-form, Semi-detached

Construction Date: Pre-1889, 1914-1930

Statement of Contribution: The property at 12 Kensington Avenue has value as an early-twentieth-century vernacular style two-storey commercial *addition* to a nineteenth-century residential structure that retains some legibility of its original form including south side wall with gabled roofline. The property at 14 Kensington Avenue has value as a nineteenth-century House-form building that reflects vernacular interpretations of Victorian architectural styles. Through its construction date and typology, each property is associated with the District's early residential development from the 1850s to the early 1900s. With its visibly layered built form, each property is also associated with the patterns of commercial adaptation and expansion that began in the early twentieth century.

The properties were erected as a semi-detached pair. Constructed between 1910 and 1930, the *addition* at 12 Kensington Avenue has retained its brick facade with pressed metal cornice and second storey window openings with brick and stone voussoirs. The property at 14 Kensington Avenue has evolved over time while retaining original *building features* including its bay-and-gable form above the first storey with brick cladding, gable, and flat headed and round arched window openings.

Each property has contextual value because it supports and maintains the historic mixed use character of the area and is physically, functionally, visually, and historically linked to the surrounding market area.

Typology: Commercial

Construction Date: 1914-1930

Statement of Contribution: The property has value as an early-twentieth-century two-storey Commercial building. Through its construction date and typology, the property is associated with the District's pattern of commercial adaptation and expansion that began in the early twentieth century.

The property has retained *building features* reflecting vernacular interpretations of early-twentieth-century architectural styles, including its brick facade with parapet and second storey window opening with brick voussoirs.

The property has contextual value because it supports and maintains the historic mixed use character of the area. With its early-twentieth-century commercial built form, the property is physically, functionally, visually, and historically linked to the surrounding market area.

Summary:

Reference Number	Primary Address	Entrance Address(es)
217.	66 Kensington Avenue	N/A

71 Kensington Avenue

71 KENSINGTON AVENUE

Character Sub-Area: Market

Typology: Converted House-form, Semi-detached

Construction Date: Pre-1889, 1914-1930

Statement of Contribution: The property has value as an early-twentieth-century vernacular style two-storey commercial *addition* to a nineteenth-century residential structure. Through its construction date and typology, the property is associated with the District's early residential development from the 1850s to the early 1900s. With its visibly layered built form, the property is also associated with the patterns of commercial adaptation and expansion that began in the early twentieth century.

Constructed between 1924 and 1930 onto the principal elevation of a pre-1889 residence, the property has retained its brick facade and pair of second storey window openings with segmentally arched brick voussoirs.

The property has contextual value because it supports and maintains the historic mixed use character of the area. With its visible layering of residential and commercial built forms, the property is physically, functionally, visually, and historically linked to the surrounding market area.

Summary:

Reference Number	Primary Address	Entrance Address(es)
218.	71 Kensington Avenue	N/A

2 Kensington Place

2 KENSINGTON PLACE

Character Sub-Area: n/a

Typology: House-form, Detached

Construction Date: Pre-1889

Statement of Contribution: The property has value as a nineteenth-century House-form building that reflects early workers' housing within the District. Through its construction date and typology, the property is directly associated with the District's early residential development from the 1850s to the early 1900s, which included a large concentration of workers' housing.

The property retains *building features* reflecting vernacular interpretations of Victorian architectural styles, including a gable ended roofline and projecting three-sided bay at the first storey.

Contextually, the property is important in maintaining and supporting the historic mixed use character of the area and is physically, functionally, visually, and historically linked to the District.

3 Nassau Street

3 NASSAU STREET

Character Sub-Area: n/a

Typology: Institutional

Construction Date: 1914-1930

Statement of Contribution: The property has value as a rare example of an early-twentieth-century Institutional building within the District. The property has cultural heritage value for its direct association with the development of the district as a complete community. Since the 1930s it has housed various organizations and served as one of the original two campuses of George Brown College.

Constructed in 1925 as a public school, the property retains a high degree of integrity including its scale, form and massing, brick cladding with stone string courses and cornice, and tall flat headed window openings. Converted to residential lofts in 2000, its rare institutional built form yields information that contributes to the understanding of the evolution of Kensington Market.

Constructed as an elementary school for the surrounding area, the property is physically, functionally, and historically linked to its surroundings where it is important and defining, maintaining, and supporting the distinct built form of the District as a complete community.

63-65 OXFORD STREET (SONYA'S PARKETTE)

Character Sub-Area: n/a

Typology: Parks/Open Space

Construction Date: n/a

Statement of Contribution: Sonya's Parkette has value as a small park that was created to provide the neighbourhood with greater green space for family-oriented activities, leisure, and a community meeting place.

The property has *cultural heritage value* for its association with Sonya Lunansky, whom the park is named after. A lifelong resident and shop owner who first set up her store in the 1930s, she was a well-loved figure in the community who is representative of the small business owners and residents who define Kensington Market.

Contextually, the property is physically, functionally, and historically linked to its surroundings where it is important and defining, maintaining, and supporting the distinct built form of the District as a complete community.

Sonya's Parkette also has social and community value as a green space with public amenities that are accessible to residents and visitors of the District.

64 & 66 OXFORD STREET

Character Sub-Area: Market (64 Oxford Street), n/a (66 Oxford Street)

Typology: Converted House-form (64 Oxford Street), House-form (66 Oxford Street), Semi-detached, Bay-and-Gable

Construction Date: Pre-1889

Statement of Contribution: Each property has value as a late-nineteenth-century House-form building that reflects vernacular interpretations of Victorian architectural styles. Through its construction date and typology, each property is directly associated with the District's early residential development from the 1850s to the early 1900s. The property at 64 Oxford Street also has value for its modifications to accommodate a commercial conversion through a one-storey commercial *addition*. With its visibly layered built form, the property is also associated with the patterns of commercial adaptation and expansion that began in the early twentieth century.

Constructed as a pair, they retain most of their original *building features* including their shared roofline, and mirrored facades above the first storey featuring brick cladding with decorative brickwork, flat headed window and door openings, and double-height projecting bay windows set under gables. 66 Oxford also retains the projecting bay window and entrance at its first storey. 64 Oxford Street also has a brick clad side elevation featuring flat headed window openings and gambrel gable facing Augusta Avenue.

Contextually, each property shares a consistent *setback*, scale, and massing with the other *contributing properties* on the street. Each property supports and maintains the residential character of the streetscape and is functionally, visually, and historically linked to the District. With its visible layering of residential and commercial built forms, 64 Oxford Street is also physically, functionally, visually, and historically linked to the surrounding market area.

88 Oxford Street

88 OXFORD STREET

Character Sub-Area: n/a

Typology: Multi-residential (86-90 Oxford Street); House-form, Detached (96 Bellevue Avenue),

Construction Date: Pre-1889 (96 Bellevue Avenue), 1904-1913 (86-90 Oxford Street)

Statement of Contribution: The property has value as a rare and early example of a purpose-built walk-up apartment building incorporating a pre-1884 House-form building. Through its construction dates and typologies, the property is directly associated with the District's early residential development from the 1850s to the early 1900s. With its combination of house and multi-residential built forms, the property yields information that contributes to the understanding of the evolution of Kensington Market.

The house form building, with the street address of 96 Bellevue Avenue, retains its scale form and massing and *building features* including buff brick cladding and voussoirs, cross gables and dormers with decorative woodwork, flat headed and segmentally arched window and door openings, two-storey projecting bays, and two-storey verandah with Tuscan columns. Constructed onto to the rear of 96 Bellevue Avenue between 1909 and 1910, the walk-up apartment building, with street addresses of 86 and 90 Oxford Street retains its scale, form and massing and original *building features* including buff brick cladding with decorative red brickwork and stonework, segmentally arched window openings, three-sided flat headed bay windows, wide eaves, and recessed entrances.

Contextually, the property shares a consistent *setback* and scale with the other *contributing properties* on Bellevue Avenue, and consistent scale with the other *contributing properties* on Oxford Street, maintaining and supporting the residential character of both streetscapes.

91 Oxford Street

91 OXFORD STREET

Character Sub-Area: n/a

Typology: Commercial

Construction Date: 1904-1913

Statement of Contribution: The property has value as a unique Commercial building within the District with *building features* suggesting Edwardian and early-twentieth-century architectural styles. As a place of employment for the working class, the property has cultural heritage value for its direct association with the development of the district as a complete community.

Constructed in 1906 as a telephone exchange building, the property is notable for its scale, form, and massing which is unique within the surrounding residential neighbourhood. The property retains a high degree of integrity with brick cladding with decorative brickwork, decorative stonework, flat headed and segmentally arched window openings and round arched central entrance on the north elevation.

Constructed to meet the infrastructure needs of the surrounding area, the property is visually, historically, and functionally linked to its surroundings. For its unique characteristics and history, the building is considered a landmark within the District.

93 Oxford Street

93 OXFORD STREET

Character Sub-Area: n/a

Typology: House-form, Detached

Construction Date: 1933

Statement of Contribution: The property has value as an early-twentieth-century House-form building that reflects vernacular interpretations of early-twentieth-century architectural styles. Through its construction date and typology, the property is directly associated with the District’s early residential development from the 1850s to the early 1900s.

The property has retained most of its original *building features*, including brick cladding with decorative stonework, gabled roofline, flat headed and segmentally arched fenestration, projecting first storey bay windows, and central front entrance with leaded glass sidelights. The east elevation, facing Bellevue Avenue, also features a side entrance with leaded glass sidelights.

Contextually, the property shares a consistent *setback*, scale, and massing with the other *contributing properties* on both Oxford Street and Bellevue Avenue. The property supports and maintains the residential character of the streetscape and is functionally, visually, and historically linked to the District.

6 & 8 St. Andrew Street (R-L)

6 & 8 ST. ANDREW STREET

Character Sub-Area: Market

Typology: Converted House-form, Semi-detached

Construction Date: Pre-1889

Statement of Contribution: Each property has value as a nineteenth-century House-form building that has been modified to accommodate a commercial conversion. Through its construction date and typology, each property is associated with the District's early residential development from the 1850s to the early 1900s. With its visibly layered built form, each property is also associated with the patterns of commercial adaptation and expansion that began in the early twentieth century.

Constructed as a pair, the properties have evolved over time while retaining original *building features*, resulting in a visibly layered built form that includes their shared roofline, paired window openings at the second storey bays and gables with attic windows and flanking brick spires.

Each property has contextual value because it supports and maintains the historic mixed use character of the area and is physically, functionally, visually, and historically linked to the surrounding market area.

365.	8 St. Andrew Street	N/A

10 St. Andrew Street

10 ST. ANDREW STREET

Character Sub-Area: Market

Typology: Institutional

Construction Date: 1930

Statement of Contribution: The property has *cultural heritage value* for its direct association with the Jewish community in Kensington Market and the development of the District as a self contained neighbourhood. Constructed for the oldest Jewish congregation in the District, it was designed by Kaplan & Sprachman, a prolific architectural firm best known for designing movie theatres, as well as synagogues and buildings for the Jewish communities. With its intact built form, *building features*, and continued use as a place of worship, the property yields information that contributes to the understanding of the important role Toronto's Jewish community played in the evolution of Kensington Market.

Constructed in the Byzantine Revival style, the property has retained many of its architectural details including brick cladding with decorative stonework, twin towers with double-height round arched windows, large entrance stairway, and double entrance with round arched transoms beneath a large round arched window. Completed in 1930, the property is one of only two remaining synagogues in the District.

Contextually, the property supports and maintains the historic self-contained neighbourhood character of the area. Built as a Synagogue when Kensington Market was the centre of Toronto's Jewish community, it is physically, functionally, visually, and historically linked to the District.

The property has social value as a continuing place of worship and is a landmark that has served members of Toronto's Jewish community since 1930.

29 Wales Avenue & 148 Denison Avenue (R-L)

29 WALES AVENUE & 148 DENISON AVENUE

Character Sub-Area: n/a

Typology: House-form, Detached

Construction Date: Pre-1889

Statement of Contribution: Each property has value as a nineteenth-century House-form building that reflects vernacular interpretations of Victorian architectural styles. Through its construction date and typology, each property is directly associated with the District's early residential development from the 1850s to the early 1900s. 29 Wales Avenue is also associated with community organizers Alice and Dan Heap who lived there from 1968 to 1990. During this period, 29 Wales Avenue became a centre for neighbourhood activism. This associative and community value is recognized by a Heritage Toronto plaque honoring Alice and Dan Heap.

Constructed in 1884 as a single detached residence, the rear portion of 29 Wales was severed to become 148 Denison Avenue. Both properties have retained many original *building features*, such as dichromatic brickwork, round and segmentally arched window and door openings, gables, and brick corbelling. 29 Wales Avenue has also retained its decorative woodwork including gabled front porch.

Contextually, each property shares a consistent *setback*, scale, and massing with the other *contributing properties* on the street. Each property supports and maintains the residential character of the streetscape and is functionally, visually, and historically linked to the District.

406.	66 Wales Avenue	N/A

68 Wales Avenue

68 WALES AVENUE

Character Sub-Area: n/a

Typology: Converted House-form, Row

Construction Date: Pre-1889

Statement of Contribution: The property has value as a nineteenth-century House-form building that reflects vernacular interpretations of Victorian architectural styles which has been modified through subsequent ground floor *alterations*. The property was purpose-built for commercial use on the ground floor, first appearing in the 1877 City Directories as the residence and store of grocer Robert Jones. Through its construction date and typology, the property is associated with the District's early residential development from the 1850s to the early 1900s. Constructed as a mixed use building that provided commercial space before the development of the market area, the property yields information that contributes to the understanding of the evolution of Kensington Market.

Having evolved over time, the property retains the legibility of its original form including shared roofline with the *adjacent* properties at 64 and 66 Wales Avenue, brick clad gabled side elevation, front façade with storefront, and flat headed second storey window opening.

Contextually, the property anchors the northeast corner of Wales Avenue and Leornard Avenue. Through its mixed use form and shared scale with the other contributing House-form buildings on the street, it maintains and supports the residential character of the streetscape. Constructed to meet the early commercial needs of the surrounding area, the property shares a consistent *setback*, scale, and massing with the other *contributing properties* on the street.

F: Transition

This Plan does not apply to those approvals identified in Appendix “F” (the “Listed Approvals”). For clarity such Listed Approvals are inclusive of instruments that have been approved in principle, either by a decision of Council or the Ontario Land Tribunal, or successor, and of any pending or subsequent site plan applications which implement such approvals.

This Plan also does not apply to any modifications or changes to such Listed Approvals provided that such modifications or changes are substantially in accordance with the *Conservation* Plan related to the Listed Approval, if a *Conservation* Plan was required as part of the earlier application. For the purposes of this appendix, “approved in principle” shall mean an approval by City Council or the Ontario Land Tribunal, or successor, approving a proposal in principle, but does not require bills to have been adopted by Council or a final Order from the Ontario Land Tribunal, or successor.

This appendix shall not be interpreted as to exclude or exempt a property from this Plan should a *new development* application(s) be proposed on a property that is not substantially in accordance with such Listed Approval.
