Dear Toronto City Council,

I am writing in support of PH18.5 - Housing Action Plan: Avenues Policy Review. The Avenues Policy Review is an important step in allowing more housing that is well-served by transit. Toronto's Avenues give residents walkable access to retail and amenities, which also supports local business. We cannot freeze our cities in amber and hold them to the wishes of the few that were fortunate enough to be young in a world of wide opportunity, who are now working to limit the opportunities of young people today.

I encourage you to support the key aspects of this report:

- the addition of new Avenues to the Official Plan map
- the removal of future Avenues Studies,
- increased height permissions near subway, light rail transit and GO stations
- areas of transition to support more housing on Avenues with shallow lots

This policy is an important part of supporting new mid-rise housing in Toronto and will help demonstrate Toronto's commitment to its Housing Accelerator Fund goals. I encourage Council to pass these recommendations so that the City of Toronto can move forward with redesignating these areas to Mixed Use where possible and complete the zoning changes needed for more as-of-right midrises.
