**Re: Support for Advancing the Waterfront East Light Rail Transit & Request for Continued Consultation**

Dear Mayor Chow and Members of Council:

Castlepoint Numa are both the development managers and owners of properties located at **309 Cherry Street (future Ookwemin Street), 324 Cherry Street and 429 Lake Shore Boulevard East** and we are writing to express our ongoing support for the proposed Waterfront East Light Rail Transit (WELRT) project. 324 Cherry Street and 429 Lake Shore Boulevard are located where Segments 2 and 3 of the WELRT intersect, and 309 Cherry Street is located on Ookwemin Minising, adjacent to Segment 3 of the WELRT.

We appreciate the leadership of both the City and Waterfront Toronto in advancing this transformative project, and we strongly support the recommendations outlined in the staff report. We look forward to further consultation with staff as the design and plans for the WELRT project progress.

Sincerely,

**Andrea Friedman**  
Vice President, Planning and Development  
Castlepoint Numa
