Subject: Letter of Support for using 333 College St CBC to improve orphan laneways.

To Whom It May Concern,

On behalf of the Kensington Market Business Improvement Area (BIA), we are writing to express our support for using the 333 College Street development's Community Benefits Contribution to fund long-overdue improvements to orphan laneways in Kensington Market, including lighting, pavement, and waste management upgrades.

This is a rare opportunity to improve safety and the public realm for local businesses, residents, and the school community, and we strongly support its approval.

Thank you for your consideration.

Sincerely,

Kensington Market Business Improvement Area

Michael Shepherd
