<sup>1</sup> The investment return was abnormally high due to one-time non-recurring capital gains realized during the transition period when fund was transferred to the external investment managers.

<sup>2</sup> The decline from 2020 is due to the significant drop in the 3-month T-Bill rate because of the pandemic.

<sup>3</sup> Valuation before the new financial instruments accounting standard (PS 3450) change.

<sup>4</sup> Including other contribution to Budget Bridging Reserve funds.

<sup>5</sup> The investment return was abnormally high due to City's maintenance of a higher-than-normal cash balance since the onset of COVID-19, benefiting from short-term interest rates at levels not seen in over two decades.

<sup>6</sup> For the six month period ending June 30, 2025

<sup>7</sup> Prorated by estimated balance between Long Term and Short Term funds.
