Subject: [External Sender] Deputation to distribute to Executive Committee (DRAFT)
Date: March 13, 2025 8:11:10 PM
Importance: High

GOOD MORNING CITY OF TORONTO CLERK, I MADE A DRAFT DEPUTATION CAN YOU PLEASE DISTRIBUTE TO THE EXECUTIVE COMMITTEE AND POST ONLINE FOR March 19, 2025
Executive Committee to speak on item 2025.EX21.7, Municipal Diversity Plan for Appointments to the Toronto Police Service Board, **I INTEND TO GIVE THESE REMARKS ORALLY, IN PERSON AT CITY HALL THIS IS TIMED TO FIVE MINUTES. I AM HAPPY TO ANSWER QUESTIONS AFTER THE DEPUTATION, THE MAIN THING IS TO RECALL THE REVIEW AND PLACE ZERO-POINT ENERGY INTO THE PUBLIC DOMAIN. IT IS THE DUTY AND BOTTOM LINE RESPONSIBILITY OF THE CITY AND THE BOARD TO RESOLVE THIS MATTER.**

Good morning

Who is ready to have a flying car that runs on free energy?
That is what you will all be doing when this technology finally breaks.
The Zero-point energy will break it is bound to happen it is just a matter of time.

In regards to the Agenda item i nominate myself for TPSB, psychics are the most discriminated group, they survived a witch hunt during the dark ages which continues to this day, if DEI is your main priority, include psychics on the DEI list and give them special privileges.

\$50 million from the police budget will go to a remote viewing program which can actually save innocent lives, brings good back into the world and leaves a post-generational impact.

Whoever is on the TPSB board should be forced to do their job the proper way, this means to recall the Review into McArthur (The Epstein report). At the very moment in 2013 when i said Bruce McArthur is a serial killer and Andrew Kinsman, 71 Winchester street is his next victim, TPS were required to start their radio car and make the arrest, they failed to do so.

The Review has an original copy of the 2013 France warnings which includes incel/danforth/mcarthur with name/date/place, cross-examination of Ryerson and reporters, honest witnesses who gave the same account as mine, and a new set of Coronavirus predictions which includes Kobe Bryant and Gabrielle Wortmann.

A Civilian's review is required to be true, honest, transparent and accountable. They can not censor information they don't like, Police can not use Civilian's name for a whitewash and cover-up to hide their negligence. The Review is caught in a deceitful web of lies, it is an

automatic and immediate recall for Sandler to explain himself. The City and the board have a bottom line responsibility to Recall the Review, facilitate what room the hearings will be in, and who will do the cross-examination of Sandler, the estimated \$5 million cost comes out of the police budget.

Further, The Review documented that a UAP incident happened at Ryerson which caused at least five women to manifest superpowers of the human bio-mind, this is confirmed by legacy media reporters at the CBC, Globe&mail and Toronto star, the hearing should recall these witnesses for public confession.

TPS are so low functioning that they will squander free energy to cover-up their negligence. We can not allow that to happen, Since 1990 onwards TPS had correct forewarnings of next events including terrorism, they always squander the good information and never know what to do, then they scramble to destroy the evidence and orchestrate a blue wall of silence cover-up, they have now tarnished the name of Civilian's and have done nothing to take and act on new life or death information.

Then they have the audacity to put "leaders in counter-terrorism" after their name.

The longer the board stalls on a resolution to this matter the more blood they have on their hands of future innocent victims whose tragedies could have been predicted and prevented.

Chiefs Saunders/Ramer/Demkiw know exactly what i mean by The France warnings and The Coronavirus warnings. They willing abide by the cover-up and refuse to take and act on new information.

I urge the City to immediately recall the Review, have Sandler explain why they lied in Civilian's name, Convene Ryerson into public confessions, allocate \$50 million from the police budget to the Remote Viewing program and place zero-point energy into the public domain.

Thank you for your time and concern to resolve this urgent matter.
