Subject: [External Sender] EX 28.1 Making life more affordable for families by asking luxury-home buyers to chip in more
Date: December 9, 2025 7:13:56 AM

Dear Mayor Chow and Executive Committee Members,

I strongly support the luxury tax on high value homes. The City needs support from those you have the resources to share with those who barely get by every day. This will greatly help make Toronto a great city for everyone.

Please be in favour of making life more affordable for all families.

My regards,
Jacinta
