

Attachment 2 – Routes and Licensed Area

Routes

- Peak season (June – Sept): yellow, blue and pink routes
- Cherry blossom season (Spring): yellow and blue routes
- Shoulder season (April, May, October): yellow and blue routes
- Winter Season (November – March): yellow route only

Licensed Area and Facility

The Licensed Area is denoted approximately in the yellow rectangle. This is where the Facility (service building) is located, for the storage of the Shuttle.

The Facility that serves as a garage for the Shuttle measures approximately 3600 square foot.

An area approximately 100 sq. ft. in front of the Facility may be used as vehicle parking for Shuttle staff, provided that parking does not obstruct access to the adjacent road and pathway for vehicles and park users.

An area approximately 280 sq. ft. behind the Facility may be used for charging infrastructure and portable washroom facility, managed and operated at the Licensee's expense.
