Date: February 26, 2025 2:19:16 PM

Infrastructure and Environment Committee,

Re:19.1

I am writing to share our support for the Ellesmere Complete Street improvements.

This project will bring much needed safety improvements to a busy, dangerous corridor like adding missing sidewalks, making intersections safer, and adding protected bike lanes.

This will help more people safely walk, bike, and take transit along Ellesmere Rd, whether they are going to UTSC, Centennial College, or Centenary Hospital. This project will help reduce car traffic congestion, improve our community's health, and support a better future for Scarborough.

We have seen first hand how dangerous Ellesmere Rd can be. Please vote in support of making these improvements to Ellesmere.

Rhoda Potter

President

Agincourt Village Community Association
