RE: IE26.6 - Please support City staff's report for A Safer Kingston Road

City of Toronto Infrastructure and Environment Committee City Clerk,

I am writing to ask you vote in favour of City staff's report recommending safety improvements for A Safer Kingston Road.

Kingston Rd is a dangerous highway cutting apart our community in Scarborough. It is dangerous for ALL road users. After years of delay, now City staff have a great plan to make it safer and more vibrant for all of us.

Watering down City staff's recommendations is a mistake. 60 km/h is not a survivable speed for a pedestrian in a collision. Drivers regularly turn right on red without looking for pedestrians or coming to a stop. That's why City staff are making recommendations to lower the speed limit and make intersection safety improvements, so that pedestrians on Kingston Rd can be safe. I support City staff's report and I am asking you to as well.

Thank you.
