Toronto City Councillors

RE: Motions MM32.15 and MM32.22

Deer Park Residents Group's (DPRG) fully supports these two motions moved respectively by our Councillor Matlow and neighbouring Councillor Saxe, and seconded by the Mayor, Olivia Chow. We are writing to ask that all Councillors support these motions.

Our community attaches very high importance to the restoration of the Vale of Avoca Ravine area and we regularly report to them on progress towards that restoration.

The funding for the Master Plan not only will allow for an efficient restoration of the ravine area for park-related purposes, but will ensure that critical water management infrastructure is addressed as well. We agree with all comments provided by the Midtown Ravines Group in relation to these motions.

Yours sincerely,

Cynthia Crysler

Deer Park Residents Group

CC: Councillor Matlow, Midtown Ravines Group
