Re: Report Back on Removal of Turn Prohibitions at Maxome Ave and Bishop Ave

Summary:

The T-intersection at Maxome Ave and Bishop Ave requires drivers to make a right turn during the hours of 3:30 pm to 7:00 pm. If residents then need to head northbound on Maxome, they are making a U-turn or turning into neighbourhood streets to accomplish the same outcome. My office conducted a survey of the neighbouring community and based on the results of the survey, there is support for the removal of the existing turn prohibitions at the subject intersection. I would like to request that a staff report be written examining the existing turn prohibitions at the intersection of Maxome Avenue and Bishop Avenue and whether their removal would allow motorists to better navigate the area.

Recommendations:

1. North York Community Council request the General Manager, Transportation Services report back on the feasibility and impact of rescinding the eastbound left-turn prohibition in effect from 3:30 p.m. to 7:00 p.m., Monday to Friday at the intersection of Bishop Avenue and Maxome Avenue.
2. North York Community Council request the General Manager, Transportation Services report back on the feasibility and impact of rescinding the southbound right-turn prohibition in effect from 7:00 a.m. to 10:00 a.m., Monday to Friday at the intersection of Maxome Avenue and Bishop Avenue.

Warm regards,

Lily Cheng
