Amending Speed Limits from 50km/h to 40km/h - Three Valleys Drive

Dear Mr. Green,

Three Valleys Drive is a local road within Ward 16 where speed limits are inconsistent due to its proximity to schools. From the intersection of Three Valleys and Laurentide Drive to Kestell Lane, the speed limit is 40km/h. While the remaining stretch to the end of Three Valleys is 50km/h.

Residents living on the road contacted my office about the inconsistency, and requested that we make the speed limit consistent, therefore making all of Three Valleys Drive 40km/h. Reasons for implementing this change include:

- Reducing vehicle operation speed to improve pedestrian safety.
- Addressing the need for a consistent speed limit on a local road that is adjacent to Three Valleys Public School.

Recommendation:

1. North York Community Council designate a 40 kilometres per hour speed limit on Three Valleys Drive, between Kestell Lane and the south end of Three Valleys Drive.

Sincerely,

Jon Burnside
Ward 16, Don Valley East
