

TORONTO PARKING AUTHORITY

POLICY RESOLUTION

2-6

ITEM: **Cost Recovery - Street Occupancy Permits at On-Street Meter and Mobile Only Zone Location**
PAGE 1 OF 2

Purpose: To define the Authority's Policy with regard to the recovery of revenues associated with on-street meters or Mobile Only Zones when they are temporarily out of service ~~to permit film companies, contractors, utilities, etc., to film and complete work on the road ways. This Policy will apply to anyone requiring the use of on-street metered spaces, due to activities led by City agencies or external parties, including but not limited to filming, construction, utility work, special events, emergency repairs, or other operations requiring temporary access to roadways. This policy does not apply to capital construction projects led by the City's Transportation Services Division, Business Improvement Area (BIA) events, or charitable events.~~

Policy: Whenever a space regulated by way of ~~a single space meter or pay and display machine~~ an on-street meter or Mobile Only Zone is out of service due to construction, or any other street occupancy permit issued by the City of Toronto, the party occupying the space will be required to pay an amount of money equal to the estimated revenue from each metered space for each day it is out of service. The amount required will be calculated differently for short duration occupancy and ~~long duration~~ occupancy.

Long Duration (4 Weeks or More)

The calculation will be done according to the following formula for each day the space is occupied where the hourly rate is the most recent Board approved rate then in effect:

Number of Spaces x the Hourly Rate x the Number of Hours
x the Occupancy Constant

The Occupancy Constants are set as follows, and are applied based on the lowest to highest rate card, with the lowest constant being applied to the lowest rate card and so on:

2024 HOURLY- RATE	OCCUPANCY CONSTANT
\$5.00	.9
\$4.00	.8
\$3.00	.7
\$2.00	.6
\$1.00	.5

ITEM: **Cost Recovery - Street Occupancy Permits at On-Street Meter Location**

PAGE 2 OF 2

Short Duration (Less than 4 Weeks):

Where spaces are occupied for a short duration, the fee is calculated as follows per day (~~Hourly Rate x Constant~~):

Number of Days x Number of Spaces x Hourly Rate x Constant

The Occupancy Constants are set as follows, and are applied based on the lowest to highest rate card, with the lowest constant being applied to the lowest rate card and so on:

2018 HOURLY RATE	CONSTANT
\$5.00	10
\$4.00	10
\$3.00	10
\$2.00	7
\$1.00	7

An additional charge to recover the cost of the Toronto Parking Authority's employee's time to process the permit and bag, remove and/or reprogram the meters will ~~charged~~ be applied to anyone requiring the removal of on-street metered spaces.

All monies collected from contractors conducting work on roadways will be included in the on-street parking revenue.

City Council at its sole discretion may request the Board of Directors of Toronto Parking Authority to waive fees associated with cost recovery.
